## A POWERHOUSE OF ALL-NATURAL INGREDIENTS

### ENERGY

Harness healthy energy without the sudden “rush” and “crash” that often accompanies sugar and caffeine packed drinks. GO TIME™ helps you optimize your athletic performance or simply gives you a boost to get through a long afternoon.

### WEIGHT LOSS

The proprietary blend of ingredients support weight loss and appetite suppression. One of the most powerful ingredients is Green Tea Extract. Research has shown that it may boost your metabolic rate and increase fat oxidation due to thermogenic and antioxidant properties.

### HYDRATION

Did you know nearly 70% of adults are not properly hydrated? Hydration is critical to optimal health. Simply add the contents of a GO TIME™ power stick to water and receive a refreshing hydration boost with essential electrolytes and hydration compounds.

As a busy mom I’m constantly on the go and I often run out of energy mid-day. GO TIME™ has replaced my afternoon coffee. Not only do I have a boost of energy, I don’t feel as hungry and find that I’m snacking less.

*Kate—Wife, Mother, Busy Career*

I used to have an energy drink before and after my workout. I started replacing it with GO TIME™ and I feel great. I would typically come home and crash after the gym. Now I find that I continue to have a stream of natural energy that lasts through the day.

*Cam—Student, High School Football Coach*
